“ Balance your life with our **elemental** touch ”

The four elements are ubiquitous.

The formation of these four elements: earth, water, air, and fire are essential to our life and our wellbeing, which go beyond physical traits and energetic forces.

The aim of 'Wellness Capital', the mother company, is to awaken all the elemental cells that lie sleeping within our bodies in a traditional and holistic approach.

“AKEE” is a Thai terminology that denotes ‘fire’. In the same regard, we wish to provide warmth, light, and internal energy to our respected customers. For this reason, we meticulously created our signature Hot Volcanic Stone massage, which is an adapted technique from ancient dynasty that aims at boosting blood circulation to detoxify the body, relieve stress, and promote balance between physical wellbeing and mindfulness.

“Balance your life with our elemental touch”.
